### **Implementation of Strategic Plan Goals**

The Countywide Strategic Plan directs that we provide Fiscal Responsibility (Goal 4) and Community Services (Goal 6). This grant will reimburse a portion of the cost to rehabilitate roadways at various locations in unincorporated areas of the County of Los Angeles (County) using rubberized asphalt containing crumb rubber from recycled waste tires, which will augment the County's existing financial resources, reduce landfill disposal and stockpiling of waste tires, and improve the condition of County roadways.

### **FISCAL IMPACT/FINANCING**

There will be no impact to the County General Fund.

The Waste Board grant, in the amount of \$250,000, will reimburse a portion of the cost to rehabilitate roadways at various locations throughout the unincorporated County area with rubberized asphalt containing crumb rubber from recycled waste tires. The total estimated cost to complete the various rehabilitation projects is \$18,491,400. Funding for these projects is included in the 2008-09 Proposition C Local Return and Road Fund Budgets.

On July 11, 2000, your Board approved guidelines for the acceptance of any grants of \$100,000 or more.
